

The one that gets carsick always gets to sit the front. That's just the way it is.

If you give him Travel, I can get back in the front seat.

Travel

**CBD oil with CBD-isolate,
ginger, balm mint,
L-tryptophan, L-theanine.**

Doesn't dwell, gets quickly to the cell. Being a solubilizate, Travel has a high bioavailability. When solubilizates come into contact with water (saliva or gastric juice), the highly concentrated, dissolved ingredients are encased by fine vesicles – creating a micro-emulsion. In this way, the body absorbs the ingredients better and faster.

Travel 15% CBD isolate

Oil with CBD-isolate, ginger, balm mint, L-tryptophan, L-theanine.

Doesn't dwell, gets quickly to the cell. Being a solubilize, Travel has a high bioavailability. When solubilizes come into contact with water (saliva or gastric juice), the highly concentrated, dissolved ingredients are encased by fine vesicles – creating a micro-emulsion. In this way, the body absorbs the ingredients better and faster.

Product type
Care product for cats and dogs
Content
2/5/10ml oil
Shelf life and expiration information
Store tightly sealed in an upright position under cool, dry conditions. Use within 6 months after opening and store in a refrigerator. Do not rinse or wash any part of the pipette with water.
Composition
Sunflower oil, CBD (15%), isolate extracted from commercial hemp, ginger extract, balm mint oil, L-tryptophan, L-Theanine
Instructions
Extract the care product with the pipette. To ensure that the Travel bottle remains securely sealed, please follow these instructions: After each use, clean the rim of the bottle with a dry, dust-free cloth to remove oil residue, keep the bottle upright and do not shake.
Note
Store tightly sealed in an upright position in cool, dry conditions. Use within 6 months after opening and store in a refrigerator. Do not rinse or wash any part of the pipette with water.
Do not use immediately before or after general anesthesia, before surgery, nor during pregnancy or lactation.
For use in cats and dogs over 6 months old.
Keep out of the reach of children.
Contains no animal ingredients.
Made in Germany.

Ingredients (excerpt)

CBD

CBD, in contrast to THC (tetrahydrocannabinol), has no psychoactive effect. To ensure that Travel does not contain THC, we use a special purified commercial distillate. It is made with an alcoholic distillation process that selectively extracts CBD and eliminates THC. The final product does not contain any alcohol, since it completely evaporates during the production process.

L-tryptophan

L-tryptophan is an amino acid and a precursor to the happiness hormone serotonin.

Lemon balm

Lemon balm is a perennial, herbaceous plant. Its leaves contain essential oils, bitter compounds and flavonoids.

Ginger root

Ginger root contains essential oils, including ginger oil.

L-theanine

This non-proteinogenic amino acid is found almost exclusively in the green tea plant.
